CONGRESSIONAL HAPPENINGS IN WASHINGTON

By CLARENCE J. BROWN
Member of Congress,
Seventh Ohio District

The attempts of outsiders to influence Congressional primary elections in Ohio and New York, and to purge from public life those who disagreed with the Presidential foreign policies prior to Pearl Harbor, met with disastrous defeat last week. All sitting Congressmen candidates were re-nominated in both states with the exception of Martin Sweeney of Cleveland, whose defeat was caused by factional troubles within his own party.

A rather well defined propaganda and "political pressure" campaign is being built up in the Eastern States to extend the gasoline rationing program to cover the entire nation. The present rationing of gasoline in the Seaboard States has been necessary because of lack of transportation facilities, due to sinkings and withdrawals of ocean-going tank ships formerly used to supply that area with its oil and gasoline needs. There is no shortage of gasoline or oil, but rather an over-supply in most sections of the country. Just how the rationing of gasoline in states where oil fields and huge refineries are located, or in areas supplied by pipeline, can help solve the gasoline and oil shortage to the East States, is hard to understand. It would make about as much sense to insist that the Coast States ration fresh seafood because the people of the Midwest States cannot obtain a plentiful supply, due to transportation difficulties.

The Office of Price Administration has announced that there will be a revision of ceiling prices on food stuffs, effective about September 15th. This price revision, it is estimated, will increase food costs by one and one-half per cent. This will be the first general break in the price ceiling structure. Others are bound to come later unless all elements going to make up the cost of such commodities are placed under strict control.

The war department has started a drive to enlist one hundred thousand skilled mechanics and technicians for service in the Army Air Force, the Signal Corps, and the Ordnance Department. Successful applicants will receive supplemental training to qualify them for Army Technician ratings. Air ground mechanics, radio mechanics and operators, metal workers, welders, telephone and telegraph operators and repairmen, electricians, mechanics and fine instrument repairmen are needed. Applicants must be between the ages of eighteen and forty-four, obtain clearance from their local draft board, and meet general military service physical requirements.

Behind the scenes the rapidly developing shortages of materials, especially metals, needed for the production of war equipment, is causing serious concern. Much of the trouble appears to come as a result of bad distribution and over-allotments of available supplies of needed material and machines. For instance, the wisdom of assigning huge quantities of machine tools and steel for the construction of battleships that will take four or five years to complete at a time when production of guns and aeroplanes is lagging for want of such steel and tools, is being questioned.

As the public anxiously awaits detailed reports concerning the operations of American forces in the attack on the Solomon Islands they can rest assured that the soldiers, sailors and marines participating in the action were well trained and prepared. It can now be told that for many weeks the men fighting in the Solomon Islands were carefully coached and trained for their landing and attack operations under conditions similar to those encountered in the actual assault. Careful study and attention was given to every detail. Nothing was overlooked. It is such detailed planning and preparation that make possible American victories against the great odds that confront our fighting men in the Solomon Islands campaign.

Two weeks ago Army public relations officers at Mitchell Field, Island, released publicity and pictures concerning the purported discovery of a Japanese submarine.

COURT NEWS

DIVORCE SUITS

Charging cruelty, Clara Mae Bell Scott seeks a decree from Charles Thurman Scott, Xenia, in one of four new divorce suits filed this week in common pleas court. Married January 21, 1933, the plaintiff seeks restoration to her maiden name of Stewart.

Mary Louise Dudley charges neglect in a petition for divorce against William Francis Dudley, address unknown, whom she married October 6, 1934, in this county. She seeks custody of three minor children.

Married October 3, 1925, at Xenia, Selma Creamer uses neglect and cruelty as grounds for divorce in her suit against Carl Creamer, Xenia. She asks restoration to her maiden name of Goodman.

William Burnett, Xenia, seeks his freedom from Dorothy Burnett, Columbus, on grounds of neglect. Married April 19, 1938, at Palmyra, Ky. they have two minor children.

WOULD QUIET TITLE

Seeking to set up interests in Miami Twp. property, to quiet title to the land and asking equitable relief, Antioch College, Yellow Springs, has filed suit against the following persons: Oliver Thuston, Cleveland; Bertha Thuston Christian, Springfield; Jennie Thuston Wiggins, Springfield; Robert Thuston, Dayton; the unknown heirs of Maude Thuston Wallace, deceased; the unknown heirs of Fannie Adams Thuston, deceased; the unknown heirs of Rebecca Adams, deceased; Leon Burnett Adams, Zanesville; Hifiling Harold Adams, Springfield; the unknown heirs of Mamie Sanford Adams, deceased; the unknown heirs of Thomas Adams, Sr., deceased; Catherine Adams, Yellow Springs; LeRoy Adams, Blackman, Yellow Springs; Dora Mae Adams Newsome, Yellow Springs; Henrietta Adams Scholer, Yellow Springs; Thomas Russell Adams, Yellow Springs; Catherine Adams as the mother of Thomas Russell Adams, Yellow Springs.

GRANT DIVORCES

These divorces were awarded: Elizabeth Chenoweth from Emory Elmer Chenoweth; and Ruby E. Paulk from Elmer Paulk, minor children granted to the plaintiff after this case was re-instated.

JUDGEMENT GIVEN

Millard Coffman, plaintiff in an action against John Newsome, and others, was awarded judgement to be determined by a jury.

DISMISS CASE

The case of H. O. Henderson against Frank Creswell was dismissed with prejudice to a new action.

ESTATE APPRAISALS

Probate court appraised the following estates:

Phoebe Ann Koogler: gross value, \$2,140; deductions, \$458; net value, \$1,682.

Ward K. Shely: gross value, \$2,613.75; deductions, not listed; net value, \$2,613.75.

Adel Colp: gross value, \$4,000; deductions, \$1,618; net value, \$2,382.

Florence Fry, gross value, \$341.87; deductions, none; net value, \$341.87.

Maude T. Stark: gross value, \$18,136; deductions, \$519; net value, \$17,617.

APPOINTMENTS MADE

These persons were given appointments: Neal W. Hunter, executor, estate of Samuel Albertus Limes, also known as Bert Limes, late of Silvercreek Twp., under \$150,000.00 bond; and O. S. Hargrave and Fred Fawcett, co-executors, estate of A. M. Spahr, late of Jamestown, without bond.

AUTHORIZE TRANSFERS

James F. McCurran as administrator of the estate of Frank McCurran and Roy Reeves as administrator of the estate of John Henry Reeves, were authorized to transfer real estate.

APPRAISAL ORDERED

The county auditor was directed to appraise the estate of Edna M. Beck.

RELIEVE ADMINISTRATOR

The estate of Joe Avey was relieved from administration.

MARRIAGE - LICENSES

Charles Irvin McCoy, 508 W. Second St., groceryman, and Rowena Louise Pennington, 183 W. Second St. Rev. Paul G. Bassett, Xenia. H. Richard Dale Lewis, Xenia, R. 4, farmer, and Betty Trout, Xenia.

(Continued on page three)

New Deal Is To Ration Meat To Newly Rich

After weeks of contention over the price ceiling on meat, packers many of whom have closed and scores of others will close if restrictions are not lifted, has left both producer and consumer mystified over conditions.

Meatmen New York papers say the United States and Great Britain have just signed contracts with Argentina cattle feeders to take several million pounds of meat weekly. Britain complains of the high cost of American meat. To break the cattle market the New Deal is to plan rationing of meat and purchase of imported meat.

Sec. Wickard says there is no scarcity of meat as of Saturday, Aug. 15. He says the problem is distribution. On Tuesday in a radio address he says rationing may be necessary due to scarcity and the quick sale of better cuts of beef.

Radio Commentator Kaltenborn says the "newly rich" will not eat anything but the best cuts of meat and for that reason there is little or no sale of "fore-quarter." Packers have been forced to discontinue sale of beef other than by a whole or half carcass.

The New Deal method of forcing Russian price control has placed small packers at a disadvantage. The government purchasing of meats from large packers has given these companies the benefit of larger profits with higher cost of livestock. The small packer is tied with fixed prices by Leon Henderson.

We have been informed the large packers are now trying to take over shipping facilities all over Ohio where cattle and hogs have been shipped in quantity. By doing this the farmer is faced with "no competition" and will be compelled to sell to whoever the government gives control of the territory. The Wickard plan is to have live stock shipped from certain points on certain days. This of course will not suit feeders. We understand a Chicago packing company has bid for the lease on the local stockyards.

RESTAURANT OWNERS DO NOT KNOW WHERE TO GET MEAT

George Geyer, Xenia restaurant operator, and head of the Miami Valley restaurant association, tells us the restaurant and hotel people are facing a serious shortage of the kind of meat the public wants. If we were asked for advice we would call Cong. Holbrook, Third District, who has been a New Deal rubber stamp most of the past two years and let him explain the situation to Price Fixer Henderson who is eating the best three times a day on government pay. If we are to have the Stalin and Hitler brand of government farmer and consumer should understand you are expected to raise what the Communists order and the consumer must eat what the dictators order or not eat at all. Orders are orders under a dictatorship in the U. S. A. or in Europe.

Stock Trucking May Be Serious Problem

Under bureaucratic orders live stock truck owners may be forced to be guaranteed a return load from the destination where hogs or cattle are trucked. As more live stock goes to Cincinnati, Dayton, Springfield and Columbus than there is freight of any kind back, truckers and feeders are wondering what will happen if this order is enforced.

FOUR-COUNTY CAMP PLANNED

Homemakers from four counties—Clark, Miami, Champaign and Greene—will attend the annual women's camp starting Sunday afternoon, Aug. 23, and closing Wednesday noon, Aug. 28, at Camp Clifton, near Yellow Springs.

The women's camp, for which a program has been arranged by a four-county committee, is part of the extension program. It is expected a large number will attend this year. Greene county members of the committee are Mrs. Arthur Bahns, Mrs. Morris Miller, Mrs. R. K. Haines, and Mrs. E. A. Drake.

YOU READ IT IN THE HERALD

DAYS AHEAD OF DAILY PRESS

The Herald was the first newspaper in the county to publish the story of the definite announcement that the W. H. Hammond Drier Co., Yellow Springs, had purchased the Ed Hunt Brown factory building and would locate in Xenia. The business has been conducted in Yellow Springs but due to school friction the firm is leaving that village.

Committee Announces College Farm Policy

The farm committee of the College Board of Trustees in charge of the new Cedarville College farm project was announced today with the following personnel: J. A. Finney, Chairman, Xenia; Rankin McMillan, Cedarville; President W. S. Kilpatrick; Wm. Conley, advisory member, Cedarville; I. A. Vayhinger corresponding member, Cedarville.

The committee has announced the following general policy: when possession is secured next March 1, a manager will be in charge of the 205 acre farm who is both experienced as a farm supervisor and in working with youth. The manager will have full faculty status, ranking as a member of the college's teaching staff. The farm will be equipped and stocked and student labor will be employed on as wide a scale as possible from the very beginning. Many gifts of livestock and fruit trees have already been offered, it was stated.

The new earn-and-learn policy of the college is a part of the \$100,000 expansion project now in progress.

Mayor's Court Has Numerous Visitors

A number of persons visited Mayor's Court the past week on various charges. Marjorie Bronson, colored, a fine and costs of \$52 for disorderly and keeping a disorderly house. Cecil Dalgin, Old Town, posted \$15 for driving while intoxicated. Myrtle Cannon, \$10 and costs for intoxication and disorderly. John Nelson, \$50 and 30 days in the county jail for disorderly and cursing an officer. A number writer drew \$50 and cost.

Sugar Stamp No. 8 Good After Aug. 23

Announcement has been made that Sugar Stamp No. 8 will be good on and after Aug. 23 until Oct. 31 but for not more than five pounds. No sugar will be sold in less than five pound packages or multiples of same and 25-pound sacks. Dayton retailers are being forced to take unusual amounts of sugar to relieve the storage space at wholesale houses and at beet and cane refineries. Beet sugar refineries say they will have no place for storage of sugar unless the public is permitted to purchase more than OPA will release to consumers.

L. D. Holmes Died In Jamestown

Funeral services for L. D. Holmes, 75, retired farmer, who died suddenly of a heart attack at the home of his daughter, Mrs. Pauline Jones, Jamestown, early Friday, was conducted at the Center Methodist Church, Fayette County, Monday at 10 a.m., with burial at Milledgeville.

He is survived by another daughter, Mrs. Mazie Wills, Jamestown; three sons, Wilbur, Springfield; Eldon, Wilmington, and Estel, Columbus; two step-sons, Ortha Dawson, Cedarville, and Homer Dawson, Point Pleasant, O.; two brothers, Arch Bloomington, and Thomas, near Sabina, and two sisters, Mrs. Addie Holmes, Xenia, and Mrs. Sallie Straley, near Toledo.

Cincinnati Banker Talks On Bonds

An intensive campaign for the sale of F and G bonds was launched in Greene County Thursday night by Judge F. L. Johnson's Victory Fund Committee, which was addressed by J. J. Rowe, president of The Fifth Third Union Trust Co., Cincinnati. The committee constituted a special bond sales force which will conduct a continuous selling campaign to produce Greene County's share of the war cost.

PURINA FEEDERS VISIT FARMS TUESDAY

A number of farmers were guests of the Ralston Purina Co. and C. L. McGuinn on Tuesday when they visited several farms in this vicinity that use the company product. The delegation was headed by Emmett Williams of the Fattening Department and Mr. McGuinn. The R. W. McGregor, E. G. Gordon and Pauline Harper farms were visited where live stock raised on this feed was inspected. Lunch was served at the Ross Twp. School at noon. Later in the evening dealers in the district held a meeting in Xenia.

BUY WAR BONDS

Charles R. Robinson Science Professor Cedarville College

CHARLES E. ROBINSON

Charles R. Robinson, B.A., B.S., M.A., Westboro, Ohio, has been named professor of science at Cedarville College for the school year opening September 21. Professor Robinson will succeed Dr. John Woodard, who taught from November 1941 to June 1942 after the resignation of Professor Ernest Gibson.

Until recently Professor Robinson has been teaching in the Clinton County school system. He is a graduate of the Ohio State University, and attended Findlay College, Ohio, for the first two years of his undergraduate course. He has had extensive undergraduate and postgraduate work in both physical and biological sciences. Other interests include music and physical education, and he has a minor in the latter field.

The new professor is married and the father of a baby girl. The Robinsons expect to take up their residence in Cedarville shortly before the opening of the autumn term of the College. They are members of the Presbyterian church.

Valley Resident Wants \$30,776 Damages

William Collins, Spring Valley, has brought suit in Common Pleas Court for \$30,776 damages as a result of an automobile accident against H. V. Zimmerman, Delaware, O., owner of twin semi-trailer outfits. Collins was critically injured and has not fully recovered although the accident happened last Sept. 2. He charges the trailers were operated at excessive speed.

FBI to Locate Dewey Sampson

Sylvester Dewey Sampson, whose last known address was Xenia, has been certified by the city-township Selective Service Board No. 1 to the department of justice (FBI) as a delinquent. He is the second man ever certified by the board for such action.

The board announced from 90 to 100 men, white and colored, will be notified to report next Friday night to the board for physical examination to determine classification.

Sexton Automobile Hits County Calf

A 350-pound calf, owned by the Greene County Children's Home, was butchered following an accident on Route 35, a mile and a half west of Xenia, near the Home, Thursday night, when an automobile struck the animal and broke its front legs. According to Deputy Sheriff Henry E. Barnett, the animal wandered on to the highway and turned in front of a machine driven by Pearl Sexton 37, Cedarville, Route 1.

40-MILE SPEED LIMIT TO BE ENFORCED

COLUMBUS, O.—Gov. John W. Bricker sent letters to Ohio Sheriffs and mayors asking their co-operation in a drive to force compliance with a 40-mile speed limit on Ohio highways. The executives were asked to assist the state highway patrol in carrying out instructions to take the names and license numbers of all motorists who exceed the 40-mile limit. The records will be turned over to rationing boards for checking against applications for tires and reapplying permits. Violators will be denied permits.

PLEDGE QUOTA OF WAR BONDS?

Wickard Asks Farmers To Sacrifice Profit To Be Patriotic

Never in the history of the U. S. have the farmers been asked to make as much sacrifice as was requested by Claude Wickard, Secretary of Agriculture over the radio, Wednesday night when he urged farmers to accept repeal of the 110 parity law on grain prices and suggested a ceiling on prices of all live stock right at a time when they have millions of hogs ready for the new corn crop. He urged farmers to go back to the depression days of 1907-14 while labor and industry garner the highest profits ever known to any people in any nation on earth.

The Wickard appeal was that farmers want to be patriotic and for that reason he would have them on par with the Russian peasants that are forced to produce under dictatorship of Joe Stalin and get nothing in return but a bare living.

Wickard suggests that farmers be paid subsidies (out of tax money) the farmers must pay directly and indirectly, to meet his program. This is but a deceitful method of price control and would leave the farmer probably worse off than taking prices of 1907-14. Wickard makes no suggestion as to how the farmer is to purchase the necessities of life on a reduced income with top (or ceiling) prices based on goods made by organized labor that refuses to accept even wage control at the present high level and asking and striking for higher wages in every line of goods made. The farmer that falls for repeal of the 110 per cent parity should be ostracized by his neighbors.

The New Deal is determined to use any method fair or foul to break the present market on hogs. Because the Communistic price fixing plan has failed and the nation aroused over the so-called meat shortage, the leaders in Washington take means to save their own necks from public scorn by making a scape-goat out of the American farmer.

Mrs. John Glessinger Died Tuesday

Word has been received here of the death of Mrs. Belle Cline Glessinger, 65, in a Detroit, Mich. hospital following an attack of heart trouble. She was the wife of John Glessinger of Flint, Mich., and is survived by two daughters, Mrs. Ilo Hamer, Fenton, Mich. and Mrs. Maude Clark, Ashland, Ohio. Burial took place Thursday from Alcoe Grundy Mortuary in Flint, Mich. A brother Curtis Cline, died several years ago. The deceased was a native of this place.

Two Weeks More For Canning Sugar

Announcement is made that the local sugar rationing committee will function but one more Thursday, August 27th being the last day. After that date local residents will have to get their permits at the Xenia office in the court house.

NO SUGAR CAN BE USED TO CAN VEGETABLES, PICKLES

Housewives will be interested in knowing that no sugar can be used to can vegetables or prepare pickles under orders from Washington. Only fruits can be prepared with sugar.

SHIP NO MORE LIVE STOCK TO DAYTON PACKER

In this issue will be found an announcement that farmers and shippers should heed. No more live stock will be received at one Dayton packing plant and probably another after Saturday until further notice. All due to the Henderson price fixing that is pitting small packers out of farmer's best friend and the one that makes competition to hold up stock prices. It's just a little bit more of the Roosevelt "Raw Deal".

DISCUSSES CONSTITUTION

Dr. F. A. Jurkat, Cedarville College faculty, spoke before the Xenia Kiwanis Club in Xenia Tuesday evening when the club enjoyed dinner at Shawnee Park. Dr. Jurkat spoke on the "Constitution of the United States."

INDUCTED MEN CALLED

County Draft Board No. 2 will send 64 men Friday to Ft. Thomas for induction if all are accepted. The Xenia City-Township board sent 26 men Wednesday and will send 20 colored men Saturday morning.

FOUR YOUTHS KILLED IN AUTO ACCIDENT SUN.

A head-on automobile crash early Sunday morning on Route 42 west of town at the Massies Creek cemetery road intersection cost the lives of four young men and serious injury to the fifth, George H. Pemberton, 18, of this place who has been a patient in the McClellan Hospital, Xenia, unconscious for several days.

The dead are:
Gene Thomas Andrews, 18, Cedarville.

James Carroll Grees, 21, Dayton.
Richard J. Krein, 23, Dayton.
Jerome Anthony Tegancamp, Dayton.

Andrews was driving his own car with George Pemberton, as a passenger and were enroute home when the crash happened about 6:20 according to neighbors. Grees was driving the other car with his two Dayton friends as passengers. Just how the accident happened is not known as there were no eye witnesses other than Pemberton, who has not recovered enough at this time to talk to the officers.

Andrews sustained a broken neck and fractured left leg, while Grees received a skull fracture. Both were killed instantly.

Krein suffered a skull fracture and fracture of left jaw and left leg and lived but a few minutes after neighbors arrived.

Tegancamp suffered a fractured skull and fractures of both legs. He was removed to the McClellan Hospital and later to the Miami Valley Hospital where death took place.

Sheriff Walton Spahr and Deputy C. K. Elliott investigated but could find little evidence to place blame. There were no road marks which showed the cars came together without even the use of brakes. It is reported one car speedometer showed 72 miles an hour. The highway was blocked for a time. Ambulances from Need and Whitmer-Chitty funeral homes, Xenia, and the McMillan Funeral Home, removed the bodies.

Gene Andrews was a son of Mr. and Mrs. Walter Andrew, Federal Pike. He was the eldest son and born near Bowersville, Nov. 15, 1923. He attended Ross Twp. School but quit last spring before graduating to engage in work at the National Cash Register Co. He returned home during harvest but had again returned to the Dayton company three weeks ago.

The deceased was a member of St. Paul's Catholic Church, of Yellow Springs, where the funeral was held Wednesday morning, following service at the home. Burial took place in St. Bridget Cemetery, Xenia.

Besides his parents he is survived by four sisters and a brother, Barbara, Norma, Pattie, Judy and Don, Richard, all at home.

Late reports are that Pemberton remains in a semi-conscious condition at the McClellan Hospital. Several blood transfusions donated by local young people have been given.

Former College Coach Gets New Job

C. D. Pyatte, who resigned as Cedarville College coach last spring to become freshman coach at the University of Dayton, has quit that job to join the coaching staff at Denison University, Granville, it has been learned here.

Coach Pyatte, who was athletic head here one year, came here from Winston-Salem, N. C. He "doubled up" during the latter part of the 1941-42 term to coach the Cedarville High School athletic teams after Paul Orr, high school coach resigned. Mr. and Mrs. Pyatte have been living in Cedarville but will move to Granville.

TWO PROGRAMS END DAY CAMP SEASON

The Cedarville Day Camp and Swimming program will end the last week in August with two events to which the public is invited. First of these is the Water Carnival which will be held at Orton Pool on Tuesday, Aug. 25th from 1 to 3 P. M. The public is urged to attend and see what progress the youngsters have made. The program will be a varied one of water contests, stunts and exhibition swimming.

The closing event will be a circus to be held on the lawn of M. W. Collins on Thursday evening, Aug. 27 from 7:30 to 9:30.

There will be no admission and all adults and children are cordially invited to both events.

FRIDAY, AUGUST 21, 1942

TRUST THE PEOPLE!

Theodore Roosevelt once remarked that, if given all the fact, the American people can be trusted to reach sound conclusions. Without the facts, they can't. Washington, we hope, will learn this simple truth.

Secretary of War Stimson now says that he is going to reorganize the Army's public relations setup to eliminate "conflicting and irresponsible" statements.

"We regard accuracy in press statements," Stimson declares, "as fundamental necessity." That is a frank confession that press agents under his jurisdiction have not always been accurate in what they handed out to the people as fact.

The story of those ploughed fields and grain sacks, which the First Air Force in New York claimed were "markers" to direct enemy bombers to war plants, was a glaring example of irresponsible statement. Gen. Drum, of the Eastern Defense Command, says these "markers" were investigated weeks ago and found to be free of any subversive connection. Then the matter was dropped.

The bright young press agent at Mitchell Field, who dug up and embroidered the story with hints of a dark and diabolical plot, undoubtedly thought he was doing the Country a service.

The effect of such hoaxes is just the opposite. They destroy public confidence in government.

Why stop, though, with the 30,000 or more press agents and public relations officials on the public pay roll? They are merely the hirelings of higherups, whose mentality and methods they spread on paper.

Why not begin at the top, where this fooling the people starts; with responsible administrative heads? Why not declare a moratorium on "conflicting and irresponsible" statements in all Government departments?

The people are tired of the run-around they have been given on rubber and gasoline, with half a dozen different officials giving out as many different statements on what the Government was going to do about wage stabilization and the eliminating of labor piracy.

Yesterday Columnist Clapper called attention to a new angle in Administrative duplicity:

"Washington officials gave a misleading impression that the government was behind Henry J. Kaiser in his spectacular plan for building giant cargo planes. The Governmenters are behind Mr. Kaiser so far behind that they have run out on him. He has been given a sly brush-off."

"To quiet public clamor, which was on Kaiser's side, Government spokesmen put out the word last week that they were giving Kaiser a go-ahead, with letters of intent. That seemed entirely satisfactory, and the public interest relaxed, assuming the Government meant business. That's what Washington wanted. It wanted to get out from under the public heat until the proposition was forgotten. It has very nearly succeeded."

We are in a war for our very existence. We have long since passed the stage when it was necessary to conjure up mythical submarines off our coasts to scare Congress into passing legislation.

The nation is solidly united in a determination to fight and work through to victory. Yet its public officials in Washington, to whom it has a right to look for intelligence and truth, apparently think that they can win this war by fooling the people. They are risking the loss of public confidence in their probity.

Americans don't like to have their intelligence insulted by cock-and-bull stories, trivialities, evasions and wise-cracking by the men they have chosen to manage their affairs. Get rid of offending press agents, yes, but don't stop there.

The people will not get the truth, all the truth and nothing but the truth until there is a change of heart in their responsible officials in Washington.

WHEN DO PARENTS BACK OFFICIALS?

We have heard much comment on the campaign out in Los Angeles, Calif., about the gangs of young boys that have adopted law-breaking methods of their elders and the police last week landed some 200 and brought them into court to learn many had committed major crimes.

When such a condition exists whether in California or in Ohio what was the first step that brought about that condition? First, we believe it was laxity of home influence and control of youth. World influence is not what it was ten or twenty years ago. Today, we wink at acts of young folks which in the end only send them on to an earlier career than they themselves expected.

Not so long ago a daughter of a Xenia township farmer was taken ill while out on an innocent automobile joyride with several other boys and girls. They loaded up on New Deal liquor and some cheap wine and set out to have a "good time." Regardless of the fact this was several months ago this young daughter who had indulged in drink to be "modern" became ill following her first experience and we are informed that she has never fully recovered.

Time after time we see the result of misdeeds on our own streets that never arouse the public until some one lands in the quay. We take it as just one of those things that happen. Too frequently youth points to the elders as "old foggies out of date." Sometimes you hear of such advice given in some college and public school class rooms.

State laws require officers to see that intended infractions are not ignored. Are our officers to be commended for doing their duty or should we condemn them? Is it not a fact that many parents resent any official pointing out their son or their daughter as one who has broken one of the laws of society?

It is a sad commentary that American citizens must continue to be content and indifferent until some calamity strikes a community. Many things would never happen a second time if parents would only give heed to the first warning that could be laid before them before a second act is committed. Resenting an officer's warning of a first act is dangerous. It only paves the way for the second—oft-times one that shocks the entire community.

Sen. George of Georgia wants the whole country to enjoy their suffering due to gasoline rationing. In a radio address he urges gasoline rationing everywhere so the whole country can suffer as he pictures "Jaw-ja." He says the rural communities are drying up because the trucks cannot deliver goods and the salesmen cannot make his calls. Moreover the rural patron cannot get to town to trade. The hukster is back to horse and wagon and doing business as he did thirty years ago. Sen. George urges other states to forget sectional differences and lend a hand to a state in trouble. How come Senator? Why not appeal to the little or the big white house occupants for relief? Your friends committed the rape. Get out the Jasso and branding iron.

If we read the new income tax bill correctly there are few farmers that will not fall into the taxpaying class. Of course if you have ten or twelve children under 18 you will be lucky, or would you be lucky when it came to purchasing footwear for that many feet? Look how much sugar Leon Henderson would let you have. Before many months Uncle Sam is going to keep books for farmers and a lot of other people. The farmer with a farm or even just live stock will have to pay. If he were a factory worker drawing twelve dollars a day and owning no property, he would not have to pay in income taxes. All he would have to do is to make a true and correct return of how much money he earned and then state he had no money to pay the tax. How would Uncle Sam get blood out of a turnip? There would be no fraud. The taxpayer could quit his job and go on relief and have his groceries delivered.

The St. Louis Post-Dispatch speaks out plainly about the effort of New Dealers to smear Cong. Walter C. Ploeser, R., who refused to be a rubber stamp for Democratic Communists.

Six candidates were in the primary against Ploeser with federal appointments by the hundred campaigning against him. When the votes were counted Ploeser polled 20,000 votes against the six candidates that only polled a total of 20,000 votes. The Post-Dispatch thinks the New Deal smear campaign was a dismal failure and assures Ploeser's election in November.

A Xenia Democrat of the old school who has about all the New Deal he can swallow met us several days ago and while in a furious mood vented his feelings against what he termed as "Washington nuts." He was sore about house rent control. He openly boasted he would not rent a house to a defense worker and would keep it locked empty rather than submit to Washington dictation. What he had to tell us about what some Xenia Democrats had been doing to renters will make interesting reading sometime in the future.

One of the full campaign slogans has made its appearance: "Franklin D. Roosevelt, the first isolationist." Did he not campaign on the promise that he would never send our sons to any foreign country to risk their lives in a war? That was long before Pearl Harbor. All we were to do was to furnish the "material and England would do the rest." Whose memory is so short that cannot recall these promises?

Another week has gone by and we are unable to inform our readers just where Lieut. Col. Major Elliott Roosevelt, the one Major Wright Field gasoline smelter, is now located. Last heard from him was on a picture jaunt out in Colorado enjoying the scenery and mountain air while looking for fox holes where a Jay might be in hiding. Meantime sons of Greene county Democrats are scattered all over the earth in behalf of their country. They are facing Jay shot and shell while Elliott is taking pictures at government expense and sleeping in highest priced hotels.

A radio commentator this week comments on the meat and food situation in this country and says there must be rationing of most all substantial foods. He says the farmer must prepare for even more grain and livestock production next year and make the same sacrifice in so doing as we ask of our boys in the service of their country. He made no mention of the present sacrifice while organized labor has a free hand and has become "the newly rich" at the expense of the American farmer.

The American farmer is destined to become the goat for England and organized labor. England wants only our hopeless hams and sugar-cured hogs. She has refused to accept any more of our American cheese and the market for that product is glutted. Now Americans are asked to eat more cheese in preference to meats. Substitute butter has hampered better

price for cream. If sacrifice is patriotism, the American farmer is contributing more than any New Dealer in or out of Washington.

Knox county is going to hold a county fair. The good New Dealers some time ago decided it would not do to have a fair with their party in war. The farmers got busy. The 4-H clubs took the war path and the horsemen cut themselves some heavy clubs and went after the fair board. Result—a fair regardless of what the New Deal wanted.

This was somewhat different than what the Franklin Chataqua crowd experienced. Last February the management went to Washington to consult about a chataqua under present conditions. They wanted to know about talent and the management suggested Leon Henderson as a bigger drawing card than Harold Ickes or Joe Lewis. The New Deal gave the "green light." In a few weeks the New Deal changed its mind—evidently they felt Leon would not be a 100-percent drawing card—and the chataqua was out. Ringling Bros. circus is going strong without New Deal opposition. How did they do it? They are show people after the fashion of Barnum, who knew how to deceive the public on fake schemes and that fleas could be taught to dance to jazz music. Ringlings concluding number was a pageant which closed the show with a huge curtain displaying a likeness of Franklin D. Roosevelt under powerful electric lights. And the show goes on regardless of rubber or gasoline. Our chataqua friends have an object lesson for next year. What say you Brother Tibbals?

The Hon. James Farley, one-time head of the Democratic party and one who refused to be crowned with "New Deal Communism" bearded the "Big Bad Wolf from the White House" this week and really pinned its ears back in jungle fashion. Jim refused as New York state chairman, to permit the party of his choice to be used to promote the Roosevelt-Wallace brand of Communism. He also refused to let religion be a factor and on this issue the White House took a defeat when even federal patronage would not prove tempting to the Bennett delegates in the convention. It is going to be a quiet week in Hyde Park. Farley's candidate won hands down.

WHAT PRICE POOLBAH?

"I am, in point of fact . . . Master of the Buckhounds, Groom of the Backstairs . . . Lord Mayor both acting and elect, all rolled into one . . . I do it. It revolts me, but I do it."

So speaks the immortal Pooh-Bah of Gilbert and Sullivan's classic of opera-bouffe, The Mikado—and, for almost 60 years, all the Western World has laughed at him as the unbeatable champion office-holder. So speaks a character in a burlesque on Japan—all Occident still greets the speech with chuckles:

"How perfectly Japanese!" Our own Mr. Harold Ickes has been appointed Federal Fishery Co-ordinator. In addition to his other jobs. If you want to address Mr. Ickes with all his titles, put your longest envelope into your typewriter and tap the following:

HON. HAROLD L. ICKES, Secretary of the Interior. Co-ordinator of Solid Foods Supervisor of the Administration of the Government of the Virgin Islands Company, Chairman of the National Power Policy Committee, Chairman of the Capital Auditorium Commission, Chairman of the Migratory Bird Conservation Commission, Supervisor of the Government Rail road of the Territory of Alaska, Supervisor of the Alaskan Road Commission, Chairman of the National Park Trust Fund Board, Federal Fishery Co-ordinator, Washington, D. C. And don't say there's anything fishy about it. For there ain't.

COMMITTEE NAMED FOR LOCAL C. C. CAMPAIGN

According to announcement made yesterday by President Walter S. Kilpatrick, a committee of prominent local farmers and business men have agreed to lead in the community drive next month for \$15,000 towards the Cedarville College expansion and self-help program. They are Clayton McMillan, J. C. Townsley, William S. Hopping, John W. Collins, George H. Hartman, Paul Edwards, and C. H. Crouse.

The campaign in Cedarville will be to secure gifts and pledges from residents in the Cedarville business area to a total of \$15,000 to be paid during the next two to three years. The campaign will be carried on locally from September 1 to 21 under the direction of Ira D. Vayhinger, President Kilpatrick stated.

The entire program calls for the expenditure during the next three years, of which the Cedarville share is the initial step. The development of the newly acquired College farm as the first step of a greatly expanded student self-help program is a major item in the \$100,000 campaign. Policies for the new College farm are announced elsewhere in the Herald.

Hedy Lamarr, Powell Co-Star In Mystery Thriller "Crossroads"

William Powell returns to familiar ground in MGM's "Crossroads," a story of blackmail and intrigue which opens Saturday, August 22 for 4 days at the Regent theater, Springfield, Ohio. Long absent from serious dramatic roles, Powell is afforded an excellent opportunity in the film and makes the most of it. Hedy Lamarr is teamed with Powell for the first time, while Claire Trevor and Basil Rathbone lead one of the year's outstanding supporting casts.

The action of the story takes place in Paris before the current war. Powell is a French diplomat happily married to Miss Lamarr. Just as he is made Ambassador to Brazil, an insidious blackmail plot is concocted against him by Rathbone and Miss Trevor. They present proof that he is living under a false identity and is really a petty criminal who robbed and murdered a man 15 years before. The situation of a man's past catching up with him to destroy all he holds dear is believably and most thrillingly presented, thanks to the expert direction of Jack Conway.

In the acting department the new picture shines with stellar brilliance, for the cast includes in addition to Powell, Miss Lamarr, Miss Trevor and Rathbone, such polished performers as Felix Bressart, Margaret Wycherly, Vladimir Sokoloff, Sig Ruman, H. B. Warner, Guy Bates Post, Reginald Owen, Frank Conway, Philip Merivale, Fritz Leiber, James Kenzie and Mitchell Lewis.

Producer Edwin Knopf has shown careful judgment in tightening the story for a suspense effect. The sets are elaborate and the musical score by Bronislau Kaper lends just the right atmosphere to the story.

William Powell shows he has lost none of his flair for the dramatic and handles his difficult assignment with finesse. Miss Lamarr, looking more beautiful than ever in stunning creations by Kalloch, MGM designer, is sincere and dramatically effective as Powell's wife. Basil Rathbone and Claire Trevor are a smooth pair of blackmailer. Felix Bressart and Margaret Wycherly deserve special mention for their characterizations.

WHAT TO DO IN AN AIR RAID

5. STAY AWAY FROM WINDOWS

Glass shatters easily, so stay away from windows. Don't go to windows and look out, in an air raid. It is a dangerous thing, and helps the enemy. The Air Raid Warden is out there watching for you. Again we say, get off the street if planes come over.

At night, there is danger of being caught in blast from explosives.

Antiaircraft fire means falling shrapnel. You are safe from it indoors, away from windows. It's more important to shell a plane than it is to see it from a window. Do not say we are repeating; we would rather repeat until we bore you than have you forget.

Stay in your room, away from windows. That is the safest place. Go there at the first alarm; stay there until the all clear.

Above all, keep calm. Stay home. Put out lights. Lie down. Stay away from windows.

You can do all those things without any special equipment, other than what you have now in your home.

You can help lick the Japs, with your bare hands, if you will do just those few, simple things.

Be a good fellow and follow instructions and keep well. Do not be a wise guy and get hurt.

CONGRESSMAN BROWN'S VIEWS ON FARM CEILING

Congressman Clarence J. Brown was interviewed by phone Thursday on the proposal of Sec. Wickard to place a ceiling on all farm live stock and repeal of the 110 per cent parity plan on grain.

Mr. Brown stated most of this question was debated for months in Congress and was checked by united farm vote of rural members. It is but a revival or a finding of a new excuse to place the farmer at the mercy of other organized groups, especially organized labor. At this time Mr. Brown says the administration is determined to breakdown the present prices of live stock, knowing that the price fixing scheme has been a complete failure, comparing one group with another.

He stated he would never vote to tie the farmers of this country to an unfair program such as Wickard has proposed and he did not think there would be enough votes in the House to repeal the 110 parity law now in force.

Mr. Brown stated that all during the hearings of farm bills in congress both President Roosevelt and Vice President Henry Wallace have tried time after time to get legislation that would permit free importation of Argentine meat into this country in competition with American fed meat.

It is his opinion that the Department of Agriculture has deliberately tried to bring about a shortage of meat so that Congress would be forced to permit free meat from Argentina.

Mr. Brown is the owner of a large farm in Clinton county and is a feeder of both hogs, cattle and sheep. He is of course personally concerned in all farm problems and will vote only as for the best interests of the farmers of the Seventh Congressional District and the nation.

With the November election but a few weeks away and the Democrats having nominated "Capt." George H. Smith, who has no interest in farm problems and does not even own one, and is drawing a princely salary from the government each month, it cannot be expected that he if elected to congress, which is very remote, would be anything other than a rubber stamp for the New Deal Communists and vote as directed.

One thing is certain there are many farm problems that Democratic farmers will require answered before voting day.

J. E. KYLE WILL HOLD PUBLIC SALE, TUESDAY, SEPT 8

Mr. J. E. Kyle announces a sale of all farm machinery and livestock at his home on the Clifton pike on Tuesday, Sept. 8. Mr. Kyle is retiring and has rented the farm to Mr. Grover Dalley, who has been on the Bradute farm.

DR. MALCOLM FINNEY MARRIED TO MISS RUTH KELLER

Mrs. E. E. Finney and daughters attended the wedding of Miss Ruth Keller to Dr. Malcolm Finney at the Evangelical Reformed Church, Marshallville, O., August 16. The bride wore a floor-length gown of white tulle and carried an arm bouquet of white roses. Her only attendant was her sister, Mrs. Harold Sieberling of Akron, who wore a floor-length gown of pink roses. Dr. Finney was attended by Russell Wellburn, who was a room-mate at Ohio State. Mrs. Finney has been employed in the office of the Peoples' Hospital, Akron. Since his graduation in veterinary medicine in 1939 Dr. Finney has been meat inspector at the Bauer Packing Plant at Marshallville. After a short wedding trip Dr. and Mrs. Finney will make their home at Akron, O.

Our fighting men are doing their share. Here at home the least we can do is put 10% of our income in War Bonds for our share in America.

Xenia, Ohio

Washington Letter (Continued from first page)

ery of numerous huge ground markings, including plowed fields, cleared spaces, paths etc., that formed arrows pointing the way for enemy aircraft to important defense plants and air bases along the Atlantic seaboard. It was also stated that "appropriate action has been taken" against those responsible. The announcement created much excitement and considerable concern throughout the country.

A few days later a Washington newspaper openly charged the whole story was a gigantic misrepresentation, and that the pictures given to the press had been taken months ago. Gen. Drum has declared the publicity releases as false.

Editor's Note—The plots of ground plowing in triangle form in the rough country was to conserve the soil but the dumb New Dealers on government payroll did not know the difference. Much of the publicity released for the press and especially for radio is overdrawn and cannot be verified by news sources. Each government department has its own publicity bureau and the agricultural department is probably the most reckless with bonifide releases. Much of it is only propaganda. For instance the mimeo report on wheat acreage plans for 1943 the story had nothing to say as what the U. S. Supreme Court may do with this case next October when the Court asked for re-argument of the case by the attorneys.

DOBBINS SAYS FARMERS WILL NOT STAND FOR REDUCED STOCK PRICES

O. A. Dobbins, master farmer, was asked for his views on the Wickard proposal to repeal the 110 parity on grain and a ceiling price to farmers on all live stock.

Mr. Dobbins was emphatic in stating that the farmers of this nation would never approve such a plan with the highest prices on farm machinery and other merchandise needed on the farm as a ceiling, which farmers would be required to pay.

It was his opinion it made no difference what was proposed in Washington the farm problem would be settled by farmers in time.

GOV. BRICKER ADDRESSES 5000 FARMERS ON CLARK COUNTY FAIR GROUNDS

Gov. John W. Bricker addressed a crowd of some 5,000 farm folks, including more than 1,000 boys and girls interested in 4-H Club work at the Clark County Fair Grounds, Wednesday on "Achievement Day". Without a thought of gasoline and rubber the farm folks turned out for the one day program. The exhibits were of a high order both in the live stock and art divisions.

Gov. Bricker was a guest at the annual picnic dinner of the Springfield Jersey Cattle Club which was held on the grounds. Fourteen farmers in 9 Ohio counties each was presented with a gift bull as the concluding event of the local phase of the nation wide 1,000 Victory Bull campaign.

Conley and Butts of this place won first on Two-Year Jersey bull. The same honor was won by this animal at the Greene and Clinton county fairs.

Prints Make Their Appearance With Bright Floral Patterns

By CHERIE NICHOLAS

WELCOME the new prints! They are gay, they are lovely, they are everything you want them to be in the way of chic and refreshing novelty. It's going to be a most exciting time for prints from now on. Not only are they putting in a much earlier appearance than usual, but they are strikingly novel in both color and design.

Smartly in keeping with the vogue for bright touches to add warmth and color to the winter wardrobe, charming rayon prints are appearing in such an out-of-the-ordinary assortment that they set a new high in zesty color and originality.

Speaking of the unusualness of new print design, you'll be thrilled with the charm of the new lace prints which fashion enthusiastically features this season. They are simply stunning! In some instances the lace motifs are so strikingly realistic it almost seems as if they were applied to their background. However, you will find it is really artfully printed patterning. Many of these lace prints are combined with gorgeous florals.

It is just such lavish lace designs as pictured to the right in the foreground of the group illustrated that are calling forth ohs and ahs from print-seeking enthusiasts. Here the patterning captures the delicate tracery of lace paper doilies and the color glory of chrysanthemums for a striking print design on fine acetate rayon jersey. The styling of this winsome midseason dress conveys a message of soft draping and a very important message it is, too, for the newer silhouettes are making a feature of slenderizing drape technique.

An outstanding new treatment found in the new prints is that of wide-spaced, brilliant florals that contrast vividly against navy or black grounds. Such designs as elegant rose or tulip prints vie for popularity with extravagant mixtures of many-colored exotic blooms. See the stunning dress worn by the figure seated on arm of chair, as shown to the left in the picture. The luxurious rayon crepe used for this newest and smartest of afternoon dresses glories in an exquisite flower and feather patterning in many colors. This deftly draped and molded-to-the-figure frock is a typically last-minute creation which answers the question of what's new for immediate wear.

Centered in the picture above is a charming print design of immense parma violets gives an exquisite handpainted effect to the softly draped flat rayon crepe that fashions this graceful, full-skirted frock. Watch for these handpainted effects, which are stunningly achieved with multi-color bouquets or single flowers spaced widely over backgrounds of fine rayon crepe in solid tones.

Be on the lookout, also, for the new and fascinating feather prints. Soft plume effects are being importantly featured; also graceful palm fronds that look very tropical when green wide-spaced ferns or palms are printed on white grounds. Other important prints that take you into the realm of small, bright effects carry interestingly diminutive plumes, formalized medallions and curlicues, or exotic paisley patterns.

(Released by Western Newspaper Union.)

Success Factors For Livestock

Practices Now Have Proven Their Value

By P. E. JOHNSTON
(Department of Agriculture Economics, University of Illinois College of Agriculture.)

Here are some 36 "success" factors by means of which farmers can gear up their livestock production for wartime needs.

All the practices have proved their worth in farm account records kept by farmers in co-operation with this college.

BREEDING: (1) Flush at breeding time, (2) reduce feed of sows 35 weeks prior to farrowing, (3) use proper type breeding stock and select individuals (mark litters and select from best and sort gilts from feeding herd before they get too fat for proper use.

FEEDING: (1) Feed proper rations to sows during gestation period, (2) provide plenty of pasture, (3) put sows and pigs on self feeder, (4) feed balanced rations to pigs and (5) provide plenty of fresh water.

Most Important.

SANITATION: (Eighteen of 24 farmers interviewed stated that sanitation was most important factor of all.) (1) Clean houses, (2) clean sows and (3) clean pastures.

MARKETING: (1) Sell spring and fall pigs when prices are normally highest (August - September and March-April) and (2) deviate from normal if the outlook shows clearly that an abnormal situation prevails at the time.

TIMELINESS: To conserve labor and to increase the production of pork, (1) breed sows to farrow at desired time, (2) have equipment ready and guard against rapid changes in temperature, (3) castrate before pigs are four weeks of age, (4) vaccinate at five to six weeks, (5) wean at eight weeks and (6) finish at six months of age, the usual time period.

Farm Hazards

Strangely, agriculture is the most hazardous American industry, with the farm home contributing largely to this amazing total of accidents. Here are some safety suggestions:

Sharp-edged tools be kept away from play places.

Stairways with more than three steps be equipped with hand-rails.

Free use of both hands not to be sacrificed because of heavy load to carry.

And stairways be kept clear of toys, tools, and boxes. The annual cost of farm and rural fires is \$200,000,000. Then, too, besides this property damage, 3,500 lives are lost in these fires.

To combat this menace:

Every open fireplace be equipped with a screen.

Kettles, pails, and tubs of hot liquids be kept off the floor.

House dry cleaning be done out-of-doors.

Matches be kept away from children.

And saucepan handles be kept away from the edges of stoves and tables.

Cuts, bruises, and infections should never be regarded as minor, as people have died as a result of a scratch becoming infected.

Lamb Fattening Tests

In an effort to help sheepmen find ways to fatten lambs by adding protein to rations, the Cornell University agricultural experiment station tested seven "protein supplements" on lambs. Each lamb received, in addition to the particular protein-rich feed tested, a standard ration of shelled corn, corn silage, ground limestone and salt.

The lambs fed linseed meal in the ration had better appetites than did those fed the other supplements, which included soybean oil meal, whole soybeans, corn gluten meal, distillers' corn dried grain, brewers' dried grains, and urea.

Averaging the two experiments, the feeding value was slightly the highest for whole soybeans, followed by soybean oil meal, corn gluten meal, and linseed meal.

Wheat Poultry Ration

Bushel for bushel, wheat is the cheapest ingredient in the poultry ration today and more and more poultrymen are feeding wheat.

The reason wheat is so cheap at the present time is that the U. S. department of agriculture is putting about 100 million bushels of wheat on the market. This was done to help livestock, dairy, and poultry producers use this wheat for feed and attain Food for Freedom production goals.

JACOB'S VISION OF GOD

LESSON TEXT—Genesis 28:10-32.
GOLDEN TEXT—I am with thee, and will keep thee in all places whithersoever thou goest.—Genesis 28:15.

Deception, trickery, falsehood, jealousy were all present in the family of Isaac at the time of our lesson. A hopeless situation, one would say; and so it was, apart from one thing—the grace of God. We speak that phrase so easily, but in reality it has an infinite depth of meaning. Jacob shared the deception planned by his mother, and thereby he received the blessing of Esau. Not willing to wait God's time for the carrying out of his promise, he slipped away to escape the wrath of Esau, he had to flee. The journey was ostensibly to find a wife, but in fact a flight from an enraged brother. Could such a journey bring a man to a place of blessing? It did, as there was—

I. A Revelation of God's Grace (vv. 10-15).

The fugitive was overtaken by darkness on the second night of his journey, and made his bed in the open. Then came the magnificent vision of the ladder of heaven.

Heaven and earth are not separated. There is a way to reach the throne of God, and there is a way for God to reach and bless His people. The vision of the ladder thus reassured Jacob. We need only remember the God-Man Christ Jesus, who came from glory and has returned there to appear as our Advocate, to be assured of this fact. God renewed to Jacob the covenant with Abraham and with Isaac. He does not forget. Men make mistakes only to break them. Jacob says, "I will not leave thee, until I have done that which I have spoken to thee of" (v. 15).

In His matchless grace God relieved Jacob's fear by assuring him of His protection; his loneliness by His divine presence; and his uncertainty regarding the future by the promise of blessing.

The response of Jacob was—

II. A Revelation of God's Greatness (vv. 16-19).

Full of holy fear and of awe, Jacob realized the presence of the infinite God. It is a proper and a wholesome reaction when a man, realizing himself as a creature, is overcome by the awe-inspiring experience.

Possibly the reason for our lack of reverence for holy things, for the Lord's day—yes, for God Himself, is because He is so little. God, weak and unimposing in our thinking. Theologians, preachers, and teachers have dared to speak swelling words of disrespect concerning His miraculous power, have denied the deity of His Son, have questioned the authority of His Word. Having sown the wind of unbelief, they have reaped from the people the whirlwind of irreverence, a belittling of God, and a rejection of His authority (Ezek. 8:7).

Jacob was reminded of God's immediate presence—"the Lord is in this place." The place of his vision of heavenly things had special meaning to Jacob.

But the underlying truth is that God is everywhere. He is not only in the church, or in the place of vision or of soul-struggle; He is also in the place of trial, of suffering, of sorrow, of loneliness—yes, even at sin. The thing that Jacob "found out that night" was not that God visits man, but that God is with man wherever he is. We expect to meet Him in the sanctuary; but He is near us in the market place. Not alone in the sanctuary, but where the multitude gather in defiance of His law, He is there" (G. Campbell Morgan).

This rich experience led Jacob to—

III. A Revelation of God's Goodness (vv. 20-22).

The God who would supply his every need, who would watch over him and keep him, was recognized by Jacob as being worthy of his devotion, and he made a vow that He should be his God (v. 21).

The grace and goodness of God are intended to bring men to faith in Him and devotion to His service. Yet men can go on year after year, the beneficiaries of all His bounty, and never so much as say "Thank you," let alone recognize Him as Lord.

Jacob made a very practical and workable decision to demonstrate the reality of his vow. He promised that one tenth of all God gave him should be given back for a sacred use.

We agree with Dr. W. H. fifth Thomas that "if only some of those who are inclined to criticize Jacob would do what he promised and give a tenth of their income to God, a different state of affairs would obtain in connection with God's work at home and abroad."

Trickery and deception were changed to truthfulness and devotion when Jacob met God face to face. The same blessed transformation awaits those who meet our Lord and Saviour Jesus Christ in faith. Have you met Him?

Names of People In Service Are Asked

Names of all men and women from Greene County engaged in service with the United States armed forces are being sought by the Greene County Library for an "Honor Roll of Greene County for World War II." The project was launched at the Greene County Fair when 215 men and women were registered at a booth on the fair grounds but other names are sought to complete the roll.

Board No. 2 Is Now In New Location

Draft Board No. 2 having jurisdiction over Greene county outside of Xenia city-township, has moved from the court house to quarters in the James building on Market st. More room was necessary and the government urged moving to larger quarters.

USED BINDER 44 YEARS

A. W. DeHaven, New Burlington, farmer, says he has a binder that has been in use for 44 years and will be used again next year. He operates a 205-acre farm.

What You Buy With WAR BONDS

It's not a pleasant picture to contemplate, but War calls for "blood and sweat and tears." And the Army Medical Corps, with its efficient nurses and its volunteer Red Cross "Angels of Mercy," needs thousands of surgical beds for field and base hospitals on every front.

These beds cost approximately \$22 each. They are the latest thing in modern hospital beds, with elevating springs. In some instances surgical cots are used in temporary field hospitals and there is a folding bed which may be used in ambulances. Your purchase of War Bonds and Stamps can buy many of these beds for the Army. You'll sleep better if you know our boys have every hospital comfort. Buy War Bonds every pay day. Invest ten percent of your income.

U. S. Treasury Department
Men are dying for the Four Freedoms. The least we can do here at home is to buy War Bonds—10% for War Bonds, every pay day.

LEGAL NOTICE

Irvin Eldridge, presently confined in the Kentucky State Penitentiary, Ed-dyville, Kentucky, will take notice that on the 19th day of August, 1942, Mar-jorie Eldridge filed her certain petition against him before the Common Pleas Court of Greene County, Ohio, in Case No. 28948, for divorce on the grounds of imprisonment of the said Irvin Eldridge in a penitentiary under sentence thereto. Said cause will come on for hearing on or after October 3, 1942.

If It's Heavily Advertised It HAS to be GOOD

OUR BRAND of democracy was won for us, and is being held for us, by men who chose their own careers, owned big farms, built big factories, and did what selling was necessary to keep those farms and factories busy.

One of the biggest aids in mass selling is mass advertising. In the long run, it "policies" itself.

Advertising of poor products al-

ways fails. Only a first rate product, fairly priced, can stand the dazzling glare of national advertising. When you think of the heavily advertised soups, soaps, breakfast foods, mechanical refrigerators, automobiles, silverware, radios—you are thinking of the aristocrats among commercial articles.

LESS TALK

by all of us, means...

MORE ACTION

for the War Effort!

The amount of time all of us use our telephones has a direct bearing upon the war effort. Lines are overcrowded with important war messages. Your call may prevent completion of a call that means more and faster action for victory. We cannot build more lines because of material shortages, so all of us must co-operate to speed America's No. 1 job by sharing our existing service. You can help by following these suggestions:

- 1 Do not make calls to key cities outside of Ohio unless they are absolutely necessary.
- 2 Plan what you want to say to the call 'till be brief.
- 3 Whenever possible, call by number.
- 4 Do not visit on the telephone. Make your local calls as brief as possible, and make sure that all members of your family, especially the youngsters, follow this suggestion.

War Calls Come First!
